

Klever M/T₂

KR629

30 initial sizes
Series: 85 - 60
& Flotation

Load Range: C, D, E, F
Rim Range: 15 - 22
Speed Rating: Q & R

The Kenda Klever M/T2 KR629 is our 2nd generation mud terrain tire designed for enthusiasts and consumers who desire maximum traction in off-road environments. The Klever M/T2 has over two years of design and extensive testing in diverse terrain to provide exceptional dispersion and grip in mud, sand and rocks while offering good wet & dry handling required by drivers on road.

All sizes of the Klever M/T2 offer our Klever Triple Threat 3-ply sidewall for exceptional durability. The optimized tread compound is formulated for chip and cut resistance and molded into a symmetric tread featuring Kenda's proprietary designed interlocking tread blocks for aggressive off-road performance. The patented tread design includes stone, debris and mud ejectors and scalloped shoulder blocks which blend with the new blockchain sidewall contours to enhance both grip and visual appeal.

Kenda has verified its performance with professional testing and will compete with the same tires in short course off-road racing that consumers can buy, demonstrating race-proven performance against competitors with our Podium2Pavement™ tagline. In addition to stylized raised Black Letters, Kenda will offer select sizes in raised Red Letters honoring our winning race heritage.

Kenda Klever - designed for people who cut their own path!

- A-B tread pattern to minimize road noise
- Optimized void area for mud evacuation
- Interlocking tread pattern for optimized off-road forward and lateral traction
- Aggressive "blockchain sidewall" designed to protect against cuts, tears and abrasion
- Mud Diffuser allows mud to flow easily out of the pattern
- Stone Ejectors remove rocks and mud from the pattern
- Strong rim protect bar
